Shiksha International School

2017-18

High School

Grades - **84.02 %**

PROJECTS

RazorPay Clone

Razorpay Clone | An Experience People Love to Talk About

As a passionate computer science student, I've been working tirelessly on creating an intuitive and user-friendly frontend for a payment gateway solution inspired by Razorpay. This project represents my dedication to bridging the gap between technology and finance.

Discord Clone

As a dedicated frontend software developer, I am deeply passionate about creating captivating user interfaces and interactive experiences. Currently, I am at the forefront of a Discord clone project, where I harness my expertise to design and develop the frontend components that shape how users connect, communicate, and collaborate online. My commitment is to deliver visually stunning and user-friendly interfaces that empower communities to thrive in the digital landscape.

News Application

As World's technology is rapidly growing and in this fast and information oriented world we need to stay updated with every incidents and news too. The News App ~ "Kya challa hai" is Android mobile application where user have access to latest news from all over the world and country. The main purpose of this application is to connect news articles from all around the world and deliver it to user as fast as possible in best visualise way .
